

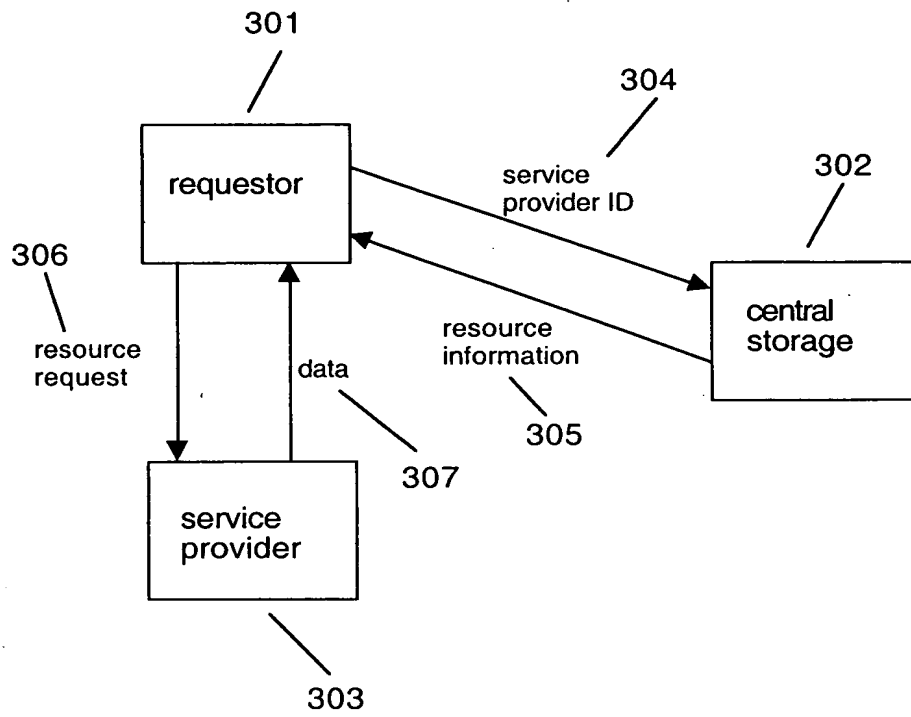

Fig. 1

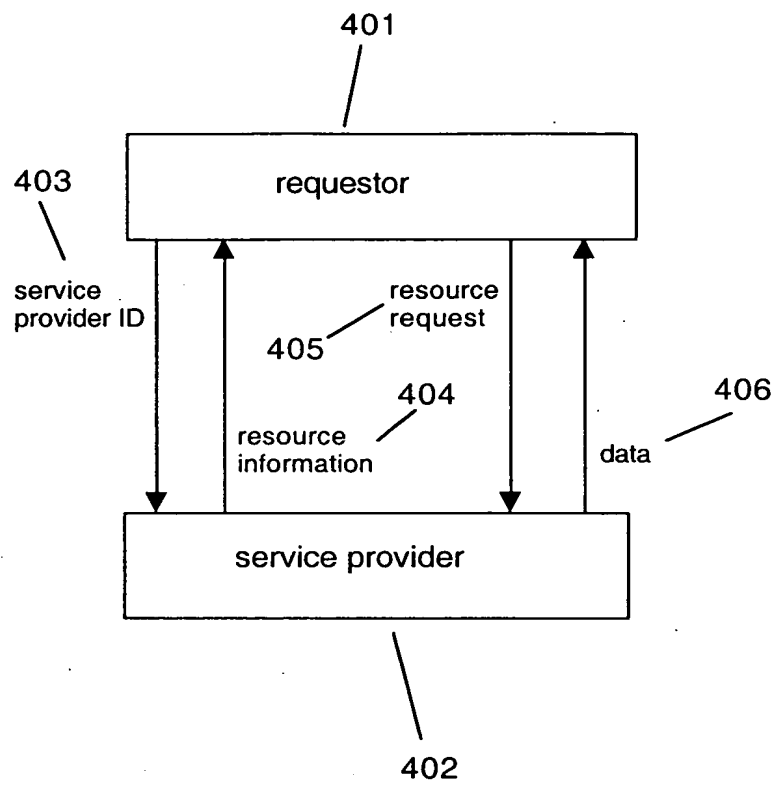

The diagram shows a table with five columns and six rows. The first row is a header row. The first column is labeled 201. The second column is labeled 202. The third column is labeled 203. The fourth column is labeled 204. The fifth column is labeled 205. The word 'Metadata' is written in the fourth column of the first row. The first row of the table body contains the labels 'URI', 'resource URL', 'description', 'status', and an empty cell. The second row of the table body contains five empty cells. The third row of the table body contains five empty cells. The fourth row of the table body contains five empty cells. The fifth row of the table body contains five empty cells. Below the table, there is a bracket spanning the width of the table, labeled 206.

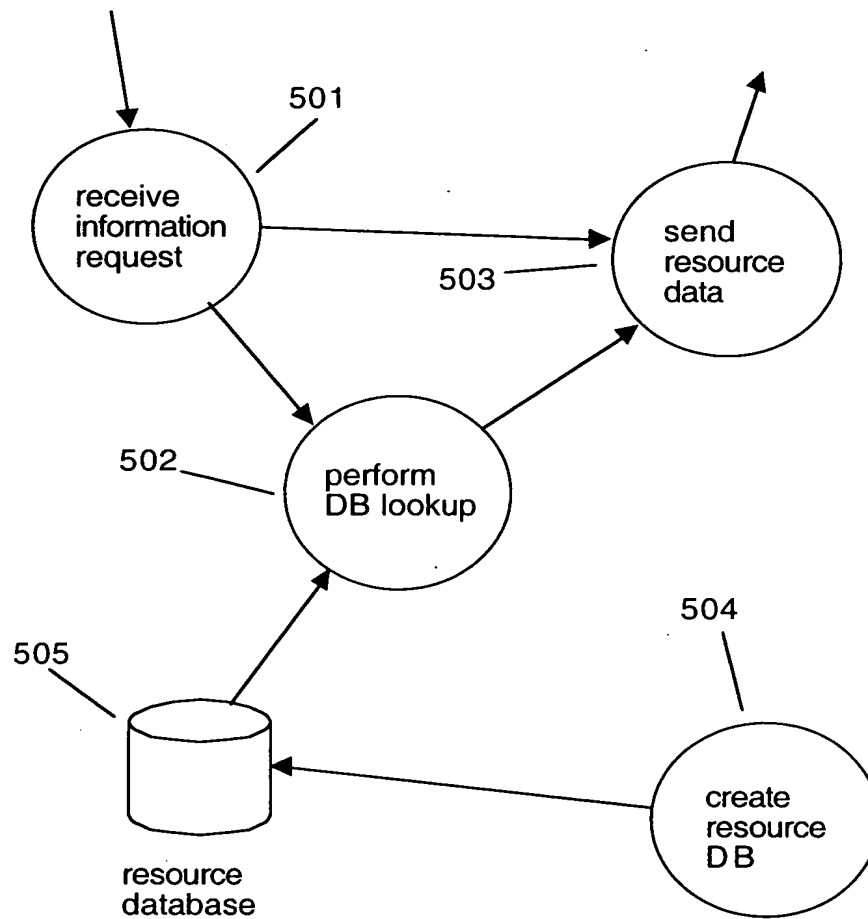

Metadata
